NO. 099

Sturmtiger 1/35

microdetails set

The parts included in this kit are to be assembled in conjunction with the Tamiya kit NO. 35177.

For best results in the assembling of photo-etched and resin parts use cyanoacrylate glue.

Always remember to use cyanoacrylate glue in a well ventilated area.

Before assembly be sure to remove all parts to be substituted with photo-etched and resin parts.

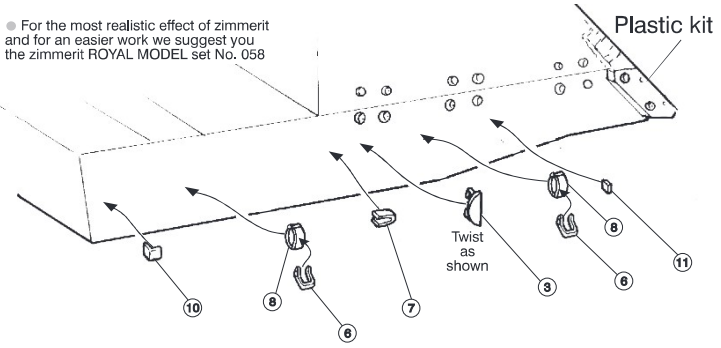
It is advised before assembly to study well the instructions which accompany this MICRODETAILS SET plus any other sufficient documentation.

Note that some particulars illustrated in the instructions have been enlarged for easy identification.

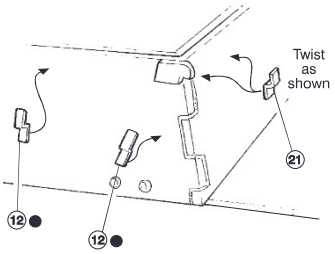
In order to super detail even inside parts of your Sturmtiger, we suggest you the kit ROYAL MODEL No. 096

If you want to carry out the model with the zimmerit, we suggest you to glue all the photo-etched parts, after having put the zimmerit on the whole model

● For the most realistic effect of zimmerit and for an easier work we suggest you the zimmerit ROYAL MODEL set No. 058



○ Substitute the plastic part with the photo-etched part. ● Repeat same operation for the other side.



Mud flap assembly.

Repeat same operation for the other side.
