MICRODETAILS SET

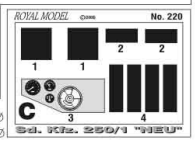

Sd. Kfz. 250/1 "NEU" part 1

No. 220
1/35 Scale

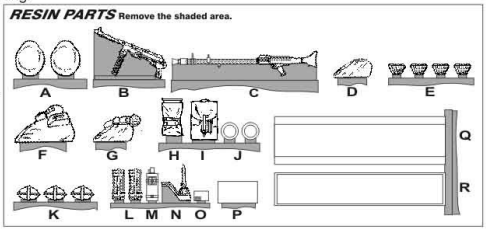

The parts included in this kit are to be assembled in conjunction with the **DRAGON** kit **No 6100**. For best results in the assembling of photo-etched and resin parts use cyanoacrylate glue. Always remember to use cyanoacrylate glue in a well ventilated area. Before assembly be sure to remove all parts to be substituted with photo-etched and resin parts. It is advised before assembly to study well the instructions which accompany this **MICRODETAILS SET** plus any other sufficient documentation. Note that some particulars illustrated in the instructions have been enlarged for easy identification. Also note that some photo-etched details will be easier to work with if heated with flame before mounting.

- ○ Substitute the plastic part with the photo-etched or resin part
- ● Repeat same operation for the other side
