ROYAL MODEL

DRAGON WAGON U.S. 40 Ton Tank Transporter

MICRODETAILS SET
No. 226
1/35 Scale

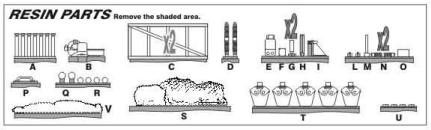

DIORAMA ACCESSORIES

The parts included in this kit are to be assembled in conjunction with the **TAMIYA** kit No 230. For best results in the assembling of photo-etched and resin parts use cyanoacrylate glue. Always remember to use cyanoacrylate glue in a well ventilated area. Before assembly be sure to remove all parts to be substituted with photo-etched and resin parts. It is advised before assembly to study well the instructions which accompany this MICRODETAILS SET plus any other sufficient documentation. Note that some particulars illustrated in the instructions have been enlarged for easy identification. Also note that some photo-etched details will be easier to work with if heated with flame before mounting.

- ○ Substitute the plastic part with the photo-etched or resin part
- ● Repeat same operation for the other side
- (00) Photo-etched part (A)
- (00) Photo-etched part (B)
- [R] Resin part
- ✹ To be heated
